

# Title of Paper

First Author<sup>a</sup>

Second Author<sup>b</sup>

Third Author<sup>b</sup>

*First Author Organisation<sup>a</sup>*  
*Second and Third Author Organisation<sup>b</sup>*

**Keywords:** Start keywords 12 pts below the list of Affiliations and provide 3 to 5 keywords separated by semicolons. The Keywords should be presented in one column

## ABSTRACT

The Abstract should be self-contained and explicit, covering the aims, methods, results and main conclusions of the research. The Abstracts should not exceed 300 words. The Abstract should not con-

tain figures, tables or references. The Abstract must start 12 pts below the Keywords and span the full width of the page in two columns (1 cm between columns). The Abstract should be formatted as 10 pt Times New Roman, fully justified.

## BODY OF PAPER

Using this document will help ensure that style definitions are consistent among ABNMS conference papers.

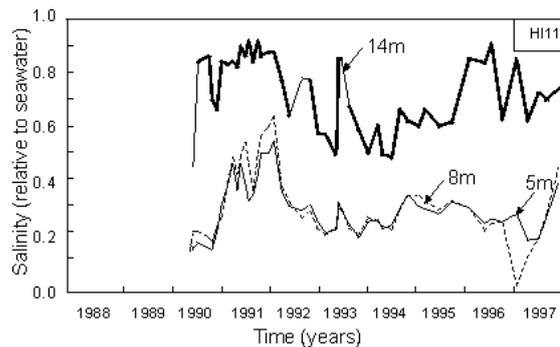

Throughout the paper, main section headings are Caps, Bold (10 pt). Text must flow in two columns with a 1cm space between columns. All text is 10pt Times New Roman, fully justified. Leave 12 pts between headings, sub-headings and paragraphs.

tions may straddle both columns. Figures should be numbered consecutively with Arabic numerals, in the order in which reference is made to them in the text, e.g. Figure 1, Figure 2, etc.

## Introduction

Secondary headings are Upper and Lower Case, Bold (Title Case).

The main purpose of an introduction is to enable the paper to be understood without undue reference to other sources. It should therefore have sufficient background material for this purpose.

**Figure 1:** 10 pt Times Roman, centered.

## Equations

Equations should be numbered consecutively as they appear in the text with Arabic numerals and should be referred to by their numbers only, e.g. (3). Equations must be typed not hand printed. About 5 mm should be left clear above and below each equation.

Photographs can also be used in the body of the paper.

## Tables

Tables must be of high quality and may be in colour. Table numbers and captions appear above the table. If necessary, tables and captions may straddle both columns. Tables should be numbered consecutively with Arabic numerals, in the order in which reference is made to them in the text, e.g. Table 1, Table 2, etc.

## Figures and Photographs

Figures must be of high quality and may be in colour. Figure numbers and captions appear at the foot of the figures. If necessary, figures and cap-

## Conclusions and Recommendations

The real value of a paper is reflected in the nature, soundness and clarity of the conclusions, so particular care should be taken with this section.

## Acknowledgments

Any particular assistance out of the ordinary may be acknowledged. It is not necessary from conference organisers point of view to record the permission of the authors organisation to publish the paper or the information contained therein.

## References

### Style

References should include (in the following order): Author Name(s), Initials, (Year), Title of article with first letter uppercase, full Journal name in Italics, Volume (Number), page range, date. The page range must be hyphenated. Example references are given below.

### References

Berry, N. (1972), The effect of metering on water consumption in Honiara-British Solomon Islands, *Journal of the Institute of Water Engineering* 26(7), 375–380.

Bhatt, N. and C. Cole (1985), Impact of conservation on rates and operating costs, *Journal of Water Resources* 11(2), 192–206.

Churchman, C., R. Ackoff, and E. Arnoff (1957), *Introduction to Operations Research*, New York: John Wiley.

Hanke, S. (1970), Demand for water under dynamic conditions, *Water Resources Research* 6(5), 1253–1261.

Ibbitt, R. and P. Hutchinson (1984), Model parameter consistency and fitting criteria, *paper presented at International Federation of Automatic Control (IFAC) 9th World congress, IFAC*, Budapest, Hungary, July 2–6.

Ogden, M. (1985), *Deactivation and preparation of fused silica open tubular columns for gas and supercritical fluid chromatography*, Ph. D. thesis, Va. Polytechnic Institute and State University, Blacksburg.

## Order

The references must be listed in alphabetical order of authors names and increasing dates of publication, with the addition of an a or b to the date, where necessary. In the text, references are cited by referring to the surname of the author, followed by the date of publication in brackets, e.g. it was shown by Hanke (1970) that ....

Where more than two authors are involved, the reference in the text should be of the form: it was shown by Churchman et al. (1957).

## Appendices

If more than one, appendices should be lettered A, B, etc., e.g. Appendix A.

## NOTATION AND UNITS

If the paper makes extensive use of symbols or other special nomenclature they should be listed and defined under this heading. Otherwise, all symbols are to be defined when first used. All units are to be SI (metric).

## CRITERIA FOR ACCEPTANCE

### Length

Full papers must not exceed seven A4 camera-ready pages. This includes the abstract, all diagrams, figures, references and appendices.

### Permission to Publish

Unless informed by the author to the contrary, the ABNMS will assume that a paper submitted has not been published or offered elsewhere and is not the property of any other person or body.

It is the authors responsibility to obtain any necessary permission from his/her organisation or from any other person or body for the publication of a paper or any material in it; such permission need not be mentioned in the acknowledgments.

## PRESENTATION OF PAPER AT THE CONFERENCE

### Electronic Presentations

All presenters will have access to Microsoft PowerPoint to assist with their presentations.

## **REGISTRATION**

At least one of the authors should be registered for acceptance of the paper and its inclusion in the Conference Proceedings.

## **ENQUIRIES AND CORRESPONDENCE**

All enquiries concerning papers should be sent to [abnms2011@abnms.org](mailto:abnms2011@abnms.org).
