Session ID	Title	Location
Poster Session 1: 11:05am – 12:00pm		
Presentation (P1)	A Review of Bayesian Modelling Methods for Gene Regulatory Network Inference	A5
Presentation (P2)	Genes and Bayesian networks: a strategic approach to poultry and stress.	B5
Presentation (P3)	A novel integration of Dynamic Bayesian Networks and Non-Additive modelling to study ecological resilience	C5
Presentation (P4)	Kernel learning for Interpretable Climate Science	D5
Spotlight (S1)	COVID-I: A Causal DBN Calculator for Informing Hospital COVID-19 Progression	B4
Spotlight (S2)	User-centric Music Recommendations	C4
Spotlight (S3)	Robust Identification of Determinants of Physical Activity Behaviour Change	D4
Poster Session 2: 16:40pm – 17:30pm		
Presentation (P5)	Untangling interdependencies of antibiotic misuse and socioeconomic factors in Urinary Tract Infections in Tanzania: a case for Bayesian Belief Networks	E5
Presentation (P6)	Treatment of Missing Data in Bayesian Network Structure Learning: The Case of Social Scientific Healthcare Data	F5
Presentation (P7)	Using Bayesian Networks to model coffee flowering in Central America	G5
Presentation (P8)	Hierarchical Bayesian Regression for Multi-Location Sales Transaction Forecasting	H5
Presentation (P9)	Development of a Bayesian Network to Model Malicious Cyber-Activity in Operational Technology Environments	I5
Spotlight (S4)	A Mixed-Methods Approach to Poor Disclosure Detection	G4
Spotlight (S5)	Bayesian Networks vs. Conditional Trees for Creating Questions for Forecasting Tournaments	H4
Spotlight (S6)	Redeeming Data Science by Decision Modelling	I4
